

I do not have satellite radio, I am planning to get it in the very near future. When I do get it, I want to listen to any variety of music satellite radio has to offer. I would be paying for these services and it shouldn't be up to the NAB to dictate what I hear. I respectfully urge you to reject NAB's petition 04-160 as I would like to protect my first amendment and also prevent big corporate companies like Clear Channel Communications from using its lobbyists, campaign contributions and political influence to manipulate the radio industry for their own monetary gains or because they feel threatened by new technology. We are not talking about free public radio broadcasting; this is privately paid radio broadcasting. We pay for it, leave it alone.
